

Midwest Orthopaedics *at* Rush

Outstanding Program Achievements

To treat all conditions of the foot and ankle, Midwest Orthopaedics at Rush physicians utilize the most current methods of diagnosis and treatment available including the latest medications, braces, and orthotics. If surgery is necessary, Midwest Orthopaedics at Rush physicians have extensive experience with procedures ranging from bunion surgery to the most complex reconstructions, including limb realignment, diabetic reconstruction, cartilage replacement, and total ankle replacement.

The foot and ankle practice at Midwest Orthopaedics at Rush is also highly involved in research, especially in the areas of adult reconstruction, rheumatoid arthritis, industrial injuries, sports medicine, diabetes, and biomechanics. Advancements in surgical techniques, prosthesis design, and rehabilitation mean that conditions that were once debilitating can today be treated effectively.

Foot and Ankle

Regional Leader in Foot and Ankle Orthopaedic Care

The physicians of Midwest Orthopaedics at Rush are the regional leaders for treatment of foot and ankle conditions. Midwest Orthopaedics at Rush has the highly specialized experience to handle numerous ankle problems that can affect adults: trauma, arthritis, fractures, sports injuries, bunions, infections—even congenital deformities.

The human foot is a very complex structure with numerous specialized bones, joints and muscles working together to achieve a unique combination of stability and flexibility. Problems can often arise in any of these specialized structures, especially with active adults. Since a disorder in one part of the foot affects the others, no foot problem can be viewed in isolation. With this in mind, the physicians at Midwest Orthopaedics at Rush view foot and ankle problems in one structure within the larger context of the entire lower extremity.

Foot and Ankle

The Region's Leading Foot and Ankle Practice

The Midwest Orthopaedics at Rush foot and ankle practice is comprised of highly trained, credentialed physicians, specialty nurses, physician assistants, rehabilitation therapists, and pain management specialists dedicated to restoring function to the fullest extent possible. The following Midwest Orthopaedics at Rush physicians specialize in foot and ankle treatment, including surgery.

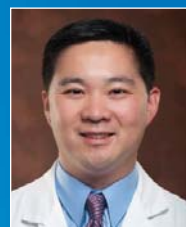

George Holmes Jr., M.D.

Foot & Ankle

Dr. George B. Holmes Jr. has been the director of the orthopaedic foot and ankle section at Rush since 1992. He has also been on the editorial board of *Foot and Ankle International* since 1989 and has spoken before numerous local, national, and international audiences.

Originally from Washington, D.C., Dr. Holmes received his bachelor's degree from Yale College in New Haven, Connecticut. He also lettered in varsity football during his tenure at Yale. He went on to complete his medical degree from the Yale University School of Medicine. Following his orthopaedic residency at the Harvard Combined Orthopaedic Residency he completed a sports medicine fellowship at Boston's Children's Hospital Medical Center and a fellowship in foot and ankle surgery in Oakland, California, under the direction of Roger Mann, M.D.

Prior to joining the orthopaedic service at Rush in 1992, Dr. Holmes served as the director of the foot and ankle section at the University of California at Davis and chief of orthopaedics at Jefferson Park Hospital in Philadelphia. Currently team physician for the Chicago Bulls N.B.A. team, he has been a medical consultant to the Sacramento Kings N.B.A. team, the Joffrey Ballet, the Alvin Ailey Dancers, Philadanco, the Boston Ballet, the Boston Marathon, and Mrs. T's Triathlon. Dr. Holmes is particularly interested in research pertaining to injuries of the Achilles and posterior tibial tendons of the foot and ankle.

Simon Lee, M.D.

Foot & Ankle

Dr. Simon Lee specializes in foot and ankle disorders with strong interests in sports-related injuries and reconstructive surgery. A graduate from Rush Medical College, Dr. Lee completed his orthopaedic surgery residency at the University of Illinois Medical Center. He completed a fellowship in foot and ankle surgery at the Carolinas Medical Center with Miller Orthopaedic Clinic in Charlotte, North Carolina.

In addition to his clinical duties, Dr. Lee is involved in numerous clinical studies and publications relating to the foot and ankle. He has served as an associate editor of *Foot and Ankle International* since 2002. Dr. Lee is also active in the American Orthopaedic Foot and Ankle Society, often serving as a moderator for the annual meeting and a faculty member during training courses for orthopaedic surgeons.

Dr. Lee is active in the community as well, volunteering annually with the Chicago Triathlon, Chicago Marathon, and Soles4Souls. He is also a consultant with the Hubbard Street Dance and the River North Dance Company in Chicago.

Johnny Lin, M.D.

Foot & Ankle

Dr. Johnny Lin is board certified in orthopaedic surgery and specializes exclusively in the treatment of complex foot and ankle disorders.

His interests include the treatment and rehabilitation of work-related injuries, sports-related injuries, deformity correction, arthritis, and fractures of the foot and ankle. He provides comprehensive surgical and nonsurgical approaches to the treatment of foot and ankle problems.

Dr. Lin graduated bronze tablet with distinction from the honors program at the University of Illinois. He obtained his medical degree from the University of Illinois medical school and completed his orthopaedic surgery residency at Rush University Medical Center. He received his specialty training in foot and ankle surgery at the world-renowned University of Tennessee-Campbell Clinic. In addition to his clinical practice, he is heavily involved in community educational events and lectures, trains medical students and residents at Rush University, serves as a journal editor of *Foot and Ankle International*, and conducts research in his area of expertise.

About Midwest Orthopaedics at Rush

By combining the unique skills and experience of the region's top orthopaedic doctors, Midwest Orthopaedics at Rush physicians offer unparalleled, comprehensive orthopaedic services. We treat thousands of orthopaedic patients every year with problems ranging from those considered common to the most complex conditions due to our national referral network.

Midwest Orthopaedics at Rush's reputation as a leader in specialized orthopaedic patient care, education, and research is validated by *U.S. News & World Report* consistently ranking the orthopaedic program at Rush University Medical Center as one of the best in the nation and the top ranked program in Illinois. Midwest Orthopaedics at Rush physicians also serve as team physicians for the Chicago Bulls, Chicago White Sox, and the DePaul Blue Demons.
