

The Rotator Cuff Stem Cell Trial

The Stem Cell Trial is a new approach to the treatment of rotator cuff tears. To be eligible for the study, you must:

1. Have shoulder pain
2. Be between ages 18 and 70
3. Be willing to undergo initial evaluation and imaging to determine if your pain is caused by rotator cuff injury
4. Be a candidate for surgical rotator cuff repair

Do you have shoulder pain due to a rotator cuff injury???

If so, you may be eligible for a study on new treatments for rotator cuff injuries

The clinical research study discussed above is an investigation. The information provided in this brochure is purely informational and not all-inclusive. The full terms of the investigation are detailed and disclosed in the patient consent form and by the physician.

If you are interested in this trial, contact Midwest Orthopaedics at:
